

XM Radio has transformed the radio industry for the better. In Phoenix, advertisers have great power over the airwaves slamming us with meaningless ads. Additionally, many radio stations have DJ "chatter" that has no respect for family values (e.g., Howard Stern). I pay for XM for a reason - the NAB should not be able dictate what I listen to. If the FCC listens to the NAB lobbyist, they are rooting for those monopolistic broadcasters who are only interested in their "bottom line".
